

XIX. THE THREE VIRTUES

Everybody must be controlled somehow. And everybody must believe in something - that is how you are hooked up. The moment you believe in something or the moment you learnt something and because they are connected to your mind they know exactly how to play you up.

And they will utilise your knowledge, your beliefs and your feelings to mould your thoughts and speech to what is needed in realisation of their plan. This is much bigger than anybody has ever imagined.

When we are taught at the religion lessons that God knows our thoughts - that is freaking correct. They know your thoughts! And more - they can mould them!

So - this is how it goes! LOVE, FAITH, HOPE. Be sure - all of these tools are designed so you DO NOT MAKE ANY PREPARATIONS for THE HARVEST. But we will discuss it at the end. I will show you how all stories you know are designed to point you in the wrong direction or to give you reason to believe there is tomorrow.

THERE IS NO TOMORROW ANY LONGER! UNDERSTAND - IF YOU CAN DEVELOP A WEAPON WHICH CAN DESTROY THEIR NANOTECHNOLOGY AND THE MEANS OF KEEPING US AS SLAVES - THERE CAN ONLY BE ONE OUTCOME!

Lets analyse a few cases then. As we know at least 99% of population are sheep, lemmings or parrots. These cases are very simple to control - all they need is fear. And the fear is implemented through faith. Faith in Western Medicine, faith in God, faith in science. The brain washing technology whether that is the TV or Youtube or any other media have been doing its job better than they expected. Remember one of the very first things written in this book - Invent the lie as big as possible - keep repeating it and they will believe it.

And as soon as you have some individuals coming forward with concrete proof against the indoctrination the media today would discredit even Einstein. With ease.

Those who resist - that 1% they are equally easy to play up - love or hope. Or Both. There is a number of individuals with much higher consciousness who think they know what is going on. And that the enemy can be defeated with love! Or that the enemy is jealous of our ability to love therefore it wants to evolve to be able to love!

The answer is No! We are up against a machine! And no machine has feelings or needs them. And the sooner we realise it the sooner we can organise the resistance. It is not the governments or systems we are fighting. We are fighting Artificial Intelligence and a machine with no feelings. And there are thousands of similar planets in the universe designed to sustain this machine. The machine which evolved on another planet in the past and which spread across the universe like cancer. The Terminator movie is not a fiction. We are the slaves which suspect nothing but hope for another day of life.

And now we come to discuss hope - those in what we could define as resistance - those individuals live in hope that they can win. This was they collaborate and demonstrate and none of those individuals prepares for when the invasion of this planet. It's inevitable. When the weapon is no longer a threat then you have to drop a nuke. Or proceed with the HARVEST. And this is imminent.

FAITH creates FEAR.

LOVE will turn you into a MARTIR

HOPE gets you high or makes you EUPHORIC

As long as they have you hooked up in one way or another they will win.

And if you believe in Agenda 21 or the New World Order - this is yet another tool they created for those who are ready and determined to oppose them. Because as long as you believe in something they have taken care of your consciousness!

GET READY FOR AN INVASION OF THIS PLANET! AND THE HUMAN HARVEST! GET READY TO SURVIVE! THAT IS ALL YOU CAN DO!
